Summary

Analytical Research Analyst and Fraud Management expert with over 2 years of professional experience (inclusive of corporate internships) specialized in translating complex financial data into actionable professional reports. Proficient in Excel, PowerPoint, and SPSS for delivering data-driven insights and market research within high-volume financial services and e-commerce environments. Proven track record in risk assessment and fraud detection for global stakeholders, including Google.

Work Experience

E SUPPORT OFFICER - Quality Control *June 2025 – July 2026*
INTOUCHCX

- Analyzed high-volume financial data within a remote operational environment, focusing on US utility billing to ensure 100% data integrity for stakeholder reporting.
- Researched billing discrepancies in account and provider data, utilizing proprietary CRM tools to mitigate financial risk and ensure accurate data integration.
- Wrote detailed audit reports and documentation for discrepancies flagged under various QC standards, providing actionable insights for process improvement.
- Managed complex data validation workflows under strict SLAs, maintaining high standards for financial services documentation and client data compliance.
- Collaborated with processing teams to analyze error trends and delivered consulting-style feedback to improve first-pass accuracy in utility data integration.

ASSOCIATE - (Fraud Analyst) *December 2024 – March 2025*
WIPRO

- Researched and analyzed fraudulent listings for Google's Shopping Risk project, conducting market research across diverse e-commerce platforms to protect marketplace integrity.
- Analyzed complex fraud system data using Google Risk Engine tools, performing in-depth risk assessments of suspicious seller activities and policy violations.
- Wrote comprehensive daily audit reports with over 98% data accuracy, translating investigation findings into actionable reports for risk mitigation decisions.
- Conducted brand verification and market research to identify policy violations, providing consulting-style insights to stakeholders to maintain buyer trust.
- Researched seller behavior patterns and collaborated on data-driven reporting to optimize fraud management protocols within a corporate environment.

Education

Bachelor of Technology in Computer Science & Engineering, GPA: 8.44 *December 2020 – April 2024*

PACE INSTITUTE OF TECHNOLOGY & SCIENCES, ONGOLE, INDIA

Intermediate in MPC (Maths, Physics, Chemistry), GPA: 8.96 *June 2018 – March 2020*
NARAYANA JUNIOR COLLEGE, KANDUKUR, INDIA

Secondary School Education(SSC), GPA: 9.3 *June 2017 – March 2018*
OXFORD HIGH SCHOOL, KANDUKUR

Additional Skills

Fraud Management & Research: Fraud Management, Fraud Detection, Risk Assessment, Market Research, Brand Verification, Investigation, Risk Mitigation

Data Analysis & Report Writing: Data Analysis, Report Writing, Consulting, Excel, SPSS, PowerPoint, Word, Financial Services Reporting

Technical & Analytical Stack: Python, SQL, Java, pandas, NumPy, Data Integration, Cyber Security, Cloud Computing

Tools & Quality Control: Google Risk Engine Notes, CRM Tools, QC & QA, Service Desk Management, Jupyter Notebook, Visual Studio Code

Certifications

- AWS CLOUD PRACTITIONER - EduSkills Platform
- CLOUD SECURITY & OPERATIONS - Palo Alto Networks Academy
- INFORMATION SECURITY - Wipro Certified
- DATA PRIVACY CERTIFICATE - Wipro Certified
- PYTHON PROGRAMMING - Infosys Certified
- CLOUD COMPUTING & DATA SCIENCE - IBM Certified
- SOFTWARE DEVELOPMENT - Microsoft Certified
- CHANGE MANAGEMENT - Wipro Certified

Projects

SMART ONLINE VOTING SYSTEM

Developed a Full Stack Web Application to modernize the voting process and increase voter accessability. Implemented database to track registered voters and prevent duplicate voting, ensuring data integrity. Designed admin dashboard to display real-time voter count and voting statistics.

Technologies: Python, HTML, CSS, JavaScript

FEEDBACK FORM

Developed a Web-based Feedback Form to collect and analyze user ratings and performance data. Enabled multiple submissions and real-time data collection to support continuous product improvement.

Technologies: Python, HTML, CSS

Internships

- CYBER SECURITY VIRTUAL INTERNSHIP | EduSkills & Palo Alto Networks: Completed 10-week internship on Cyber Security, Network Secuity, and Threat Monitoring. Learned firewalls, cloud security, vulnerability assessment supported by Palo Alto Networks.
- AI-ML VIRTUAL INTERNSHIP | EduSkills & AWS Academy: Completed 10-week internship on AI, ML, Python, and AWS cloud concepts. Worked on data preprocessing and ML model building supported by AWS Academy.
- PYTHON PROGRAMMING | E & ICT Academy, IIT Kanpur: Completed 6-week Intensive internship on Python Programming by IIT Kanpur. Covered Data structures, OOP, and problem-solving with hands-on coding.
